

Overview

PRODUCT FEATURES

- Built-in pressure switch automatically starts and stops pump when discharge valve opens and closes
- Compact design and plug-in port fittings make installation easy
- Can run dry without damage and handle liquids up to 130°F (54°C)
- Excellent self-priming capability; pump may be located above the liquid level

Flojet developed the Quad Series diaphragm pumps to deliver flows up to 5 GPM (18.9 LPM) using a four-piston design with excellent self-priming capability.

Aside from general purpose needs, including water transfer or spraying, Flojet Quad Series pumps can also accommodate the pressure and flow rates required for agricultural spraying, automotive use, chemical transfer, road compaction, floor care, and car wash applications.

Specifications

SPECIFICATIONS	QUAD SERIES
Voltage	12V and 24V DC, 115V and 230V AC
Flow Rate	3.5-5 GPM (13.2-18.9 LPM) nominal
Max Pressure	40 psi (2.8 bar)
Pressure Switch Setting	45 psi (3.2 bar) cut-out
Self-Priming	Up to 8' (2.4m) vertical height
Ports	Plug-in ports 1/2" (13mm) or 3/4" (19mm) hose barb standard
Weight	4lb (2kg)
