

Overview

PRODUCT FEATURES

Model No.: VR050

- High head capability - 10 metres (32 feet.)
- Self priming up to 3 metres (9.6 feet.)
- Continuously rated
- Vibration tested
- IP55 protected motor
- 24V version with thermal cut-out protection
- Full range of installation accessories
- Customised kits for OEM customers

12/24V Fuel Transfer Pump

Flow rate: 50 Litres/min (13 gallons/min)

Self-priming from dry up to 2.4m (7.8ft)

Specifications

PUMPS	VR050-CF24
Body Materials	Cast Iron
Rotor	Sintered Iron
Vanes	Sintered Bronze
Seal	Nitrile Lip Seal
Shaft Material	Steel
Port Type	3/4" BSP or 25mm (1") hose adaptors
Voltage	24 (Vdc)
Motor Type	Permanent magnet, corrosion resistant IP55 protected
Temperature Range	-22 to +104 (°F) -30 to +50 (°C)
Duty Cycle	Continuously rated up to 3 metres (10 ft.), total head of diesel fuel at 40°C (104°F)
